

WOK

Perception

KNOWLEDGE ISSUES? KNOWLEDGE CLAIMS?

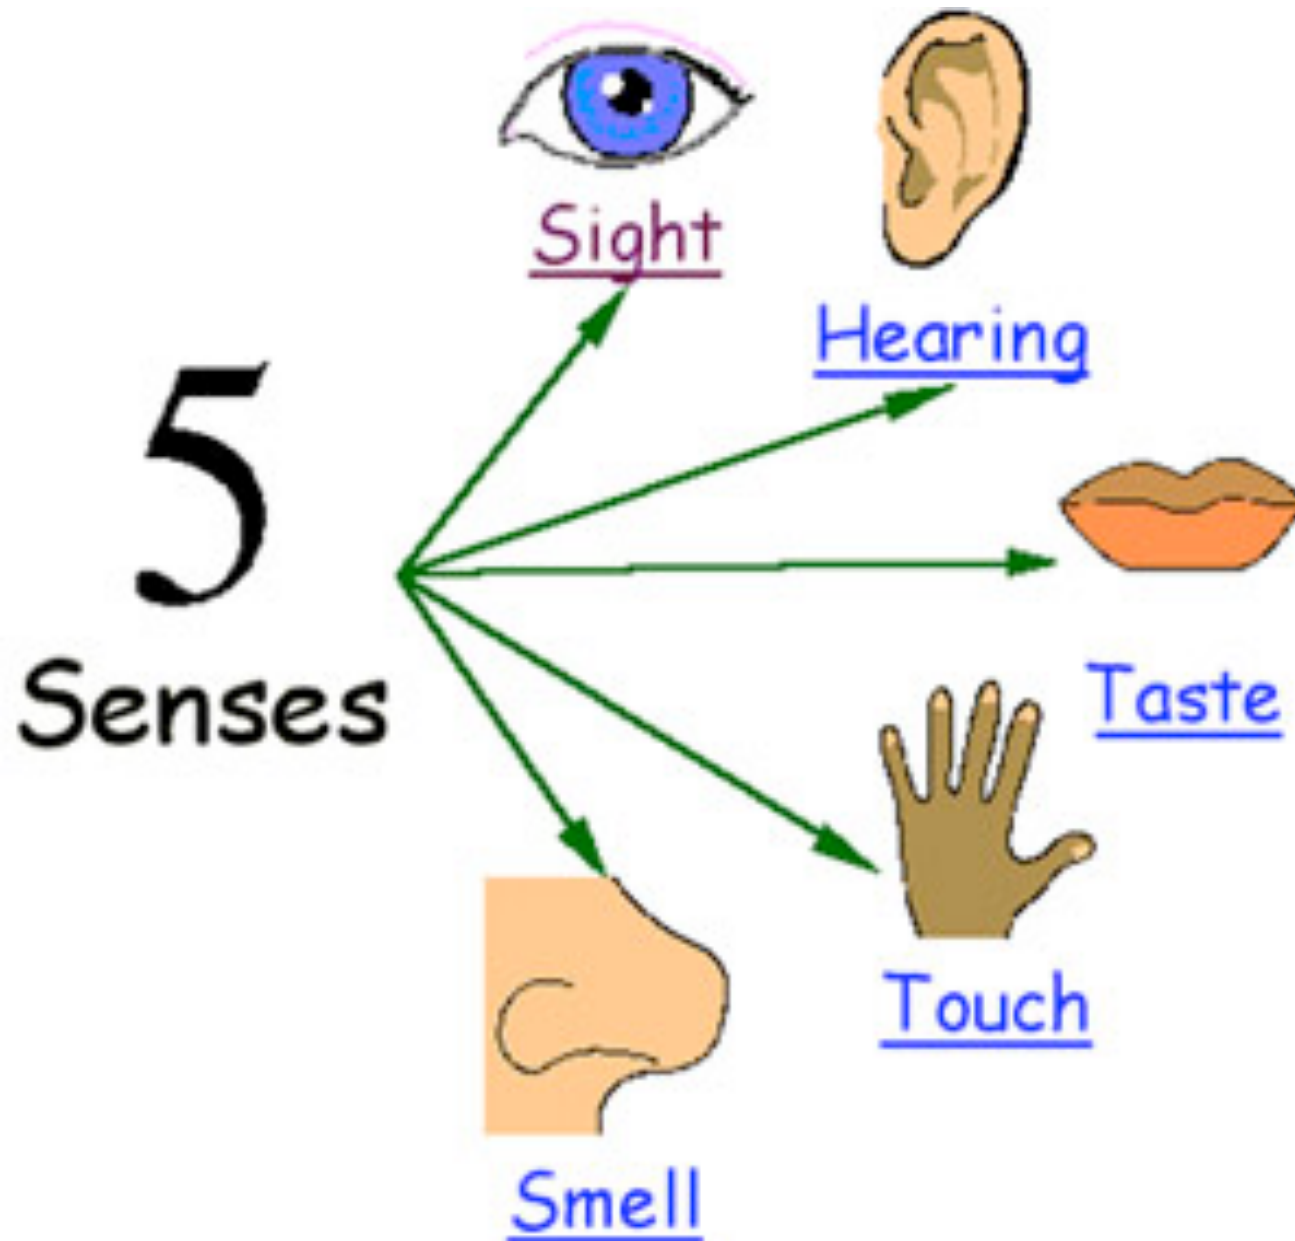

- What is perception?
- How can we trust our senses?
- How reliable are our senses?

http://brainu.org/files/bu013_senses.jpg, May 28, 2010

- To what extent do our senses give us knowledge of the world as it really is?
- How can perception mislead us from the truth?

If you had to give up one of your senses, which one would you give up and why?

If you had to give up one of your senses,
which one would you give up and why?

Results of the class:

• Hearing -

• Touch -

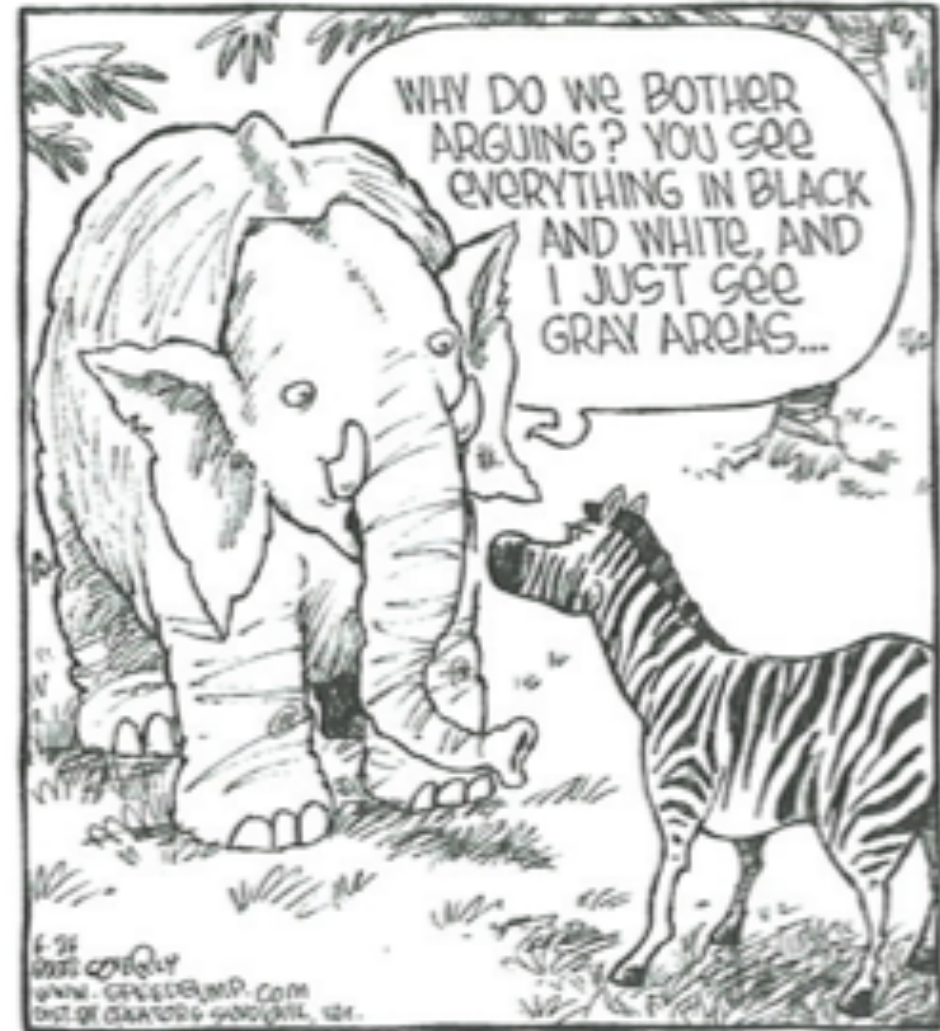

• Seeing -

• Smell -

• Taste -

PERSPECTIVES

- Perspectives that emerge from a range of situations -
Examples: e.g. the loss of 1 or 2 senses, gender, race, religion, ...
- Theories of reality

LINKS TO OTHER AOK

http://jovialiste.files.wordpress.com/2009/09/escher-unbelievable-527579_1024_768.jpg, May 28, 2010

- What is the role of sense perception in the various areas of knowledge, for example, history or ethics?
- Does sense perception perform fundamentally distinct functions in the arts and the sciences?

LINKS TO OTHER WOK

- What is the role of language and culture in the perceptual process?
- What is the more reliable WOK? Reason or sense perception?

AT THE CONCLUSION OF THE UNIT YOU WILL BE ABLE TO...

- Understand that perception is filtered through one's brain and one's experiences (Subjectivity and perception)
- Distinguish when the senses are not reliable
- Understand the implications that perception has on views of the world
- Discuss the link between perception and reality
